### DETAILED ACTION

1. This action is responsive to communications: Application, filed on 03/09/04.

This action is made final.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 48-67 are rejected under 35 U.S.C. 102(e) as being anticipated by Klein, US# 20060265350.

As per claims 48-49, Israni et al. teaches "identifying a starting record from among a plurality of recorded property records . . . using a first attribute value from the starting record to search the data set . . . adding the first additional records to a result set of records . . ." (see paragraph [0006] and [0026]-[0027]) "searching the data set to identify subsequent additional records; adding the subsequent additional records to the results set . . ." (see paragraph [0043] and [0068]).

As per claim 50, Israni et al. teaches "receiving a user input that specifies the starting record" (see paragraph [0065] and [0101]).

As per claim 51, Israni et al. teaches “wherein using a first attribute value from the starting record . . . executing a fuzzy logic search for the value” (see paragraph [0006] and [0079]-[0080]).

As per claims 52-53, Israni et al. teaches “marking the starting record with an indication that the starting document . . . starting record to search the data set to identify first additional records from the data set . . . an exact match of the value” (see paragraph [0006], [0037], and [0042]).

As per claim 54, Israni et al. teaches « wherein values of location category attributes . . . block value, or tract values” (see paragraph [0061], [0081], and [0084])

As per claim 55, Israni et al. teaches “determining that the name does not at least approximately match a name . . .” (see paragraph [0072], [0079], and [0092]).

As per claim 56, Israni et al. teaches « wherein searching the first data set to identify subsequent additional records . . . a specific section value . . .” (see paragraph [0068] and [0079]-[0080]).

As per claims 57-58, Israni et al. teaches « removing records from the result set if an address value of the record . . . if a parcel identification value of the record differs from a parcel identification value of the starting record” (see paragraph [0006], [0060] and [0068]).

As per claims 59-67, these claims are rejected on grounds corresponding to the arguments given above for rejected claims 48-56 and are similarly rejected.

***Response to Arguments***

4. Applicant's arguments with respect to claims 48-67 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
